# Chapter 18 - Backup Tools

Philipp Moritzer - 21170004

#### **Backup Media Types**

- Magnetic Tapes
- CD/DVD-Rom
- Zip drives
- Hard drive/network backup
- USB

### **Backup Types**

- Full backup
  - o entire system is backed up
- Differential Backup
  - Only backups that has changed since last full backup
- Incremental Backup
  - Backup on what has changed since the completion of any type of backup

#### tar

- Tape Archive
- Options:
  - o c create
  - o t show contents
  - o x extract
  - o v verbose
  - o f set filename

#### Options:

```
$ tar cvf mydir.tar mydir # all contents under mydir directory will be bundled to
mydir.tar
$ tar tvf mydir.tar # shows content of bundled file
$ tar xvf mydir.tar # extracts tar file
```

#### compress

#### Compress a file to a smaller file

```
$ compress mydir.tar # compress mydir.tar file -> mydir.tar.Z
$ uncompress mydir.tar.Z # uncrompresses mydir.tar
$ gzip mydir.tar # -> mydir.tar.gz
```

```
$ gzip -d mydir.tar.gz # extract file
$ gunzip mydir.tar.gz # extract file
```

## Example

```
$ tar cvf mydir.tar mydir
$ compress mydir.tar
$ ftp 10.10.54.75
ftp> bi
ftp> put mydir.tar.Z
ftp>quit
$ telnet 10.10.54.75
$ uncompress mydir.tar.Z
$ tar xvf mydir.tar
```
